Dear Dr. Bottomley,

We have received comments from two anonymous referees. The referees' comments have been reproduced in a separate supplementary file in Roman. Our answers to the anonymous referees are inserted in italics in the same supplementary file. We have revised the paper. In the revised manuscript, our modifications are highlighted in yellow. With current hardware, we cannot improve the images, nor can we provide meaningful comparisons. We hope that you will find this work acceptable as a proof-of-concept.

Best wishes,

Sina Marhabaie
