

Interactive comment on “Hyperfine spectroscopy in a quantum-limited spectrometer” by Sebastian Probst et al.

Sebastian Probst et al.

milos.rancic@cea.fr

Received and published: 12 September 2020

We are grateful to Graham Smith and Edgar Groenen for their kind words and appreciate that experienced EPR spectroscopists find our work of interest. We generally agree with all the Referee’s comments and have amended the manuscript accordingly. The attached PDF contains our specific responses to each of the Referee’s comments.
