Re.: mr-2021-8

Dear Editorial Team,

the manuscript has been reviewed by two anonymous reviewers, who did not ask for any revision. Yet, a revised manuscript has been uploaded, with the following two changes:

1) The address of the author for correspondence has been changed to RWTH Aachen University, as in the meantime (after more than one year), RWTH Aachen University confirmed, that the retired author can still use the University as his affiliation.

2) An acknowledgment has been added, because the project outlined in the manuscript has now received funding by DFG. Also, a minor contribution by a former student is acknowledged.

With kind regards,

Prof. Dr. Bernhard Blümich
